

#BB85 – Hinge Saver

BB85
Steel- C26D

- Handed (RH shown – LH opposite)
- Non Reversible
- 2 Knuckles
- Surface Mounted
- Fixed Pin
- All Pivots are Standard Template

GENERAL PRODUCT INFORMATION: PBB, Inc. template hinges are manufactured to close tolerances and meet all specifications and requirements set by the American National Standards Institute (ANSI). One surface mounted hinge saver c/w mounting screws (wood & metal), per package.

APPLICATION: A simple solution to the problem of sagging door, loose screws, distorted hinge leaves, pulled open knuckles caused by heavy vibration, door slamming or excessive use. The shock comes first to the reinforcing hinge and is transmitted to all bearing surfaces of the frame.

*NOTE: Specify left or right hand

Available Option: Leaves can be beveled for better appearance and easier cleaning.
