

VISIONAIRE

Are open design grilles allowing free circulation of air and full visual access to the area being protected. The curtain is comprised of a series of 5/16" diameter solid aluminum (stainless or galvanized optional) rods of alloy 5056 H32 at 2" on center (1 1/2" optional). Supporting the horizontal rods are vertical chains formed of eyeletted aluminum (stainless optional) spaced at 9" apart. For added security, the chains may be specified to be spaced at 6" or 3" apart.

DETAILS

Practical Design Applications

- Mall Storefronts
- Behind Storefront Glass
- School Corridors
- Service Window Openings
- Healthcare
- Transportation
- Hospitality/Public Space

Benefits

- Q/S Program - Cornell can manufacture and ship most standard grilles in one week.
- Size Flexibility - each unit is built to exact opening size requirements.
- Compact Storage - curtain stores in an overhead coil that is totally supported by extensions of the side guides.
- Durability - commercial duty design.
- Maintenance - little to none.
- Repairs - job records are retained and parts are readily available.

Available Options

- Hoods and fascias
- Cylinder locks with or without an interior thumbturn
- Bottom bar sensing edge for motorized units
- Operator covers
- Emergency manual release system
- Motor mounted interlock device
